# About Us

Established in 2016 by Mr. Prakashchand Bandamutha, Kaashni Hardware has swiftly become a leading name in the architectural hardware industry. With over 25 years of experience, we take pride in offering an extensive range of top-quality aluminium products and solutions for both industrial and domestic customers.

As one of India's largest distributors of Incaux hardware, we deliver cutting-edge technology and innovative solutions to meet the diverse needs of our valued customers. Our strategic ventures, such as Sekkei Systems, allow us to provide a comprehensive array of products, including sliding door systems, glass partitions, door closers, floor springs, and other hardware solutions, tailored to cater to our clients' unique requirements.

At Kaashni Hardware, we are committed to excellence in every aspect of our business. We embrace sustainability and eco-friendly practices, ensuring our products help reduce carbon footprint while maintaining top-notch functionality. Our dedicated team of highly skilled professionals offers exceptional customer service, providing end-to-end solutions from initial consultation and design to seamless installation and post-installation support.

Our portfolio boasts successful projects across diverse industries, including residential, commercial, and corporate spaces. We continually push the boundaries of innovation, striving to exceed expectations and deliver the best results possible.

As we continue to grow and expand our horizons, our vision remains clear: to be the go-to provider of architectural hardware solutions in India. When it comes to elevating spaces and redefining projects, Kaashni Hardware is your trusted partner.

Effortless elegance in motion with our Top Hung, Bottomless sliding doors.

Immerse yourself in a world of unparalleled sophistication and tranquility, where the union of beauty and functionality effortlessly intertwines. Surrender to the allure of these doors that beckon with sheer elegance, inviting you to experience the epitome of convenience and poise.

## KAASHNI HARDWARESS

Sekkei is an architectural design philosophy that originates from traditional Japanese building practices. Rooted in principles of simplicity, balance, and respect for nature, Sekkei aims to create spaces that harmonize with their surroundings, inspire a sense of tranquility, and optimize functionality. The term "Sekkei" itself translates to "plan" or "design," and its essence lies in meticulous planning and precision, where every aspect of a structure is carefully considered to achieve an ideal blend of form and function.

Embark on a visual journey of inspiration by scanning the QR code! Prepare to be captivated as you delve into a gallery of our exceptional creations. From innovative furniture hardware solutions to awe-inspiring interior transformations, this QR code leads you to a realm of possibilities. Discover firsthand the impeccable craftsmanship, sleek designs, and transformative power that define our work.

Kaashni Hardwaress, embraced the Sekkei approach and introduced it to modern design with a touch of contemporary flair. By combining the timeless wisdom of Japanese architecture with innovative techniques and materials, We have been able to craft spaces that not only showcase architectural excellence but also evoke a profound emotional connection with their occupants. The integration of Sekkei principles in their projects has allowed us to create environments that foster a sense of calmness and balance, offering a refuge from the fast-paced world outside while simultaneously celebrating the beauty of simplicity and natural elements.
