VISTA 75 - 31-34

A plethora of system dividers for the modern space, we at Parti glass, design and fabricate our products to fit in your space. We fabricate, supply and install partition systems to complement residential, commercial and corporate spaces. Parti glass Partitions are simple and hassle-free. The flexible configuration effortlessly moves the elegant frame combining structural design with conceptualization.

Structurally, partition walls offer customizable shapes and sizes, ultimate flexibility and easy maintenance. Offered in a variety of textures and materials in addition to fit every space without creative ideas being compromised.

With years of experience to provide solutions for offices, hospitals, banks and many more apart from commercial and corporate spaces, our team transform simple dimensions to design concept rooms. Working with architects and design engineers, have only added new profiles, offering exceptional services, innovative designed partition systems and unsurpassed quality.

At Parti glass, we provide not just customized solutions but also stylish, modern and functional interiors.

## VISTA 85

Vista 85 Double Glazed Office Partition meets the demand for more acoustic privacy in building interiors. This keeps exterior sound out and interior sound in while allowing ample natural light to flow through office interiors. Series combines the efficiency and aesthetic attributes of glass with the performance.

- Standard track 85 x 32 mm.
- Heavy double glass system with venetion blinds.
- Suitable for glass thickness 6 to 8mm.
- Horizontal + vertical.
- Single door frame Sizes to allow 35 to 45mm doors.
- Double glaze system.
- Easy to operate venetion blinds between two glass panels.
- Sound insulation capacity upto 40 - 48db (Standard condition).
- Double glass doors can be installed with this option.
